

# Quality Education

So we can land good jobs when we are older.  
I think we should have several different educations so that we can learn to speak other languages like English and Portugues and other things that we don't learn that

we could learn.  
So people can be educated and help their children when they are older.

It is important to get good education including girls and boys.  
Quality education helps to reduce poverty.

I think that education is for everyone including adults and children.  
All ages should be able to get education.

Sustainability Development Goal:

Quality Education No. 4
